

“All-in-One” Technology for Total Talent Management

Products designed to meet your business-specific requirements and oversee a blended workforce.

Whether you're a direct employer, a staffing agency, or an MSP, UpGlide adapts to your business-specific workforce requirements through its different product offerings.

UpGlide Total Talent VMS

Completely manage your workforce lifecycle from beginning to end. Engage and manage candidates, employees, vendors, and independent contractors in one central platform.

SOFTWARE FEATURES

- » Job order management
- » Interview/onboard candidates
- » Vendor management
- » Employee timesheet management
- » Expense tracking
- » Document management
- » Reporting
- » Your logo on the platform

UpGlide Timesheets

A simple timesheet solution to manage employees' time and expense information from multiple sources. The interface makes it easy for your employees to log their hours worked and for you to effectively track labor spend.

SOFTWARE FEATURES

- » Employee timecard management
- » Overtime/double time spend management
- » Reporting
- » Your logo on the platform
- » Unlimited users

UpGlide Sub-Vendor Management

Manage your own sub-vendor program in addition to independent staffing. Centralize vendor, procurement, and billing management in one platform for end-to-end administration.

SOFTWARE FEATURES

- » Job order management
- » Sub-vendor management
- » Reporting
- » Native Bullhorn ATS integration
